

DISTRICT 24 I LIONS CLUBS

Results of Vision Screen – **Complete Eye Examination Recommended**

Dear Parent,

Date _____

Your child _____
was screened for possible vision problems by trained volunteers from the Lions Club.

While this screening is not diagnostic nor performed by certified health personnel, **it did suggest that your child should be further examined by an eye care professional such as an optometrist (O.D.) or ophthalmologist (M.D.). The screening today indicates that you child's vision is not within normal range for his or her age.**

It is recommend that vision screenings and regular professional eye examinations be part of regular health care for all children.

If you have any questions about this screening, please feel free to contact the Lions District 24-I Children's Services Chairperson, Margene Hartsough at margene234@aol.com.

Volunteers from the _____ Lions Club

The results of this screening is printed on the reverse of this letter. We ask that you present the information to the eye doctor at the time of the exam.
